 <div><p>Password reset email sent.</p><p>If the email address you entered is registered, you will receive an email to reset your password.</p></div>	<p>Displayed after requests was successfully sent to reset password endpoint.</p> <p>For security, API will not return whether user exists.</p>
	<p>Empty UI player – get all videos in default playlist via get playlistID</p>

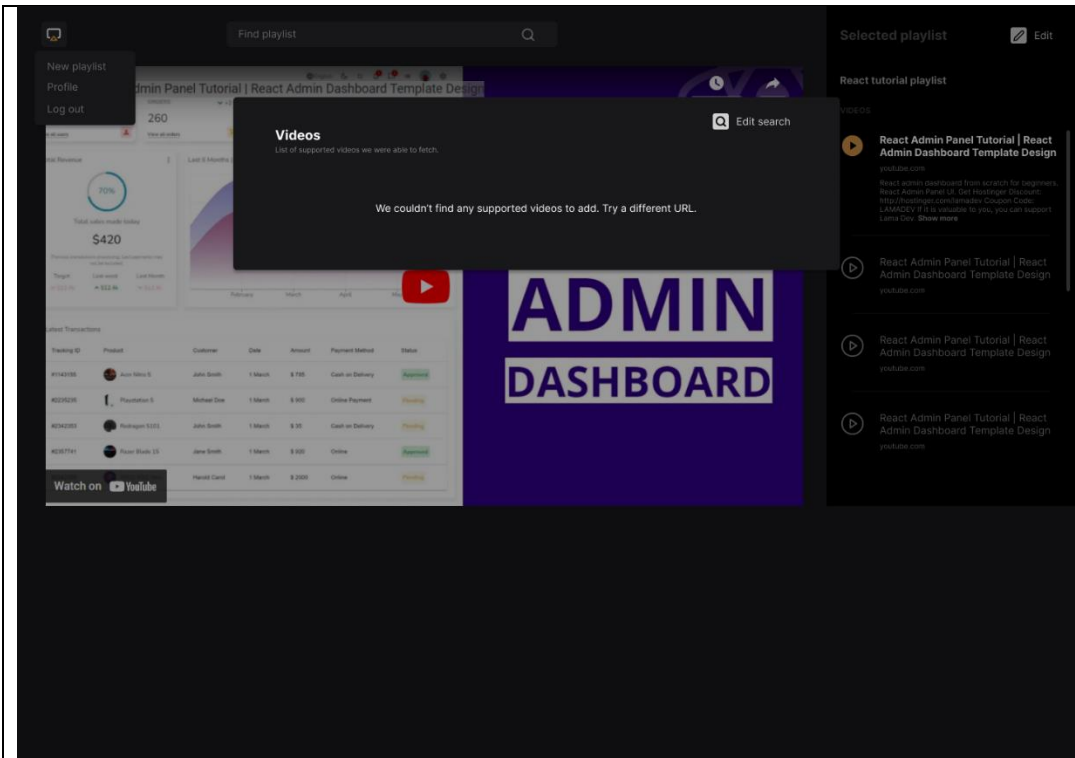

Embed service  
endpoint

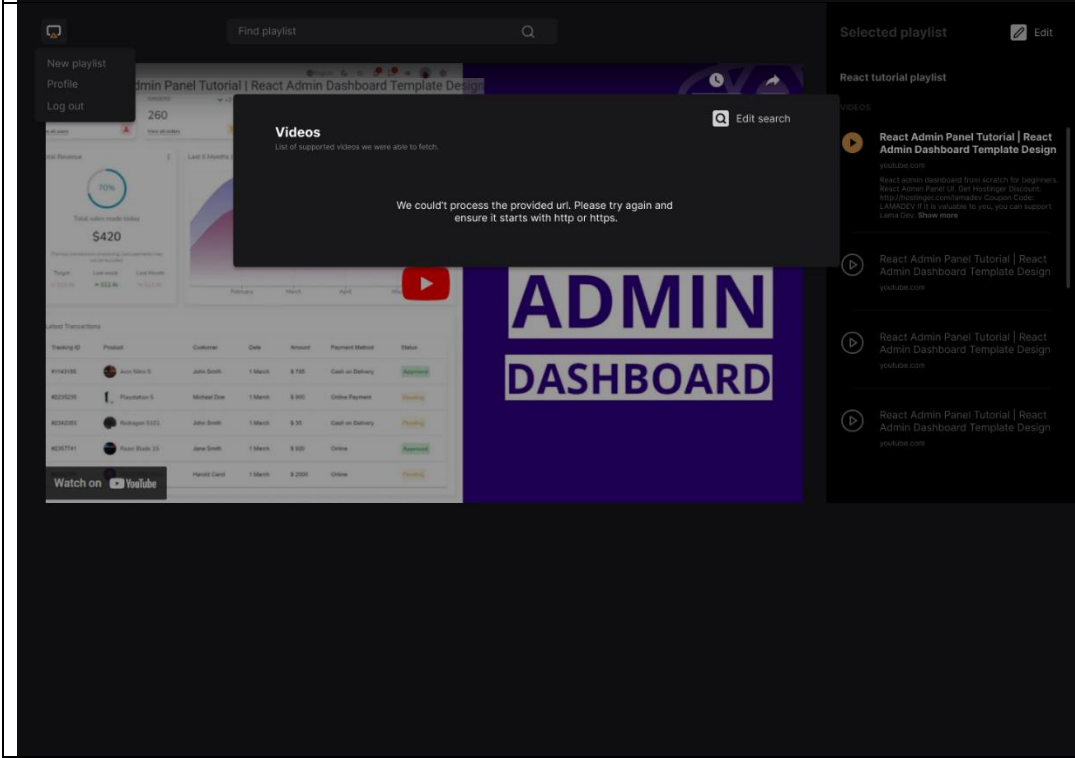

Endpoint returns list of  
videos from parsed  
URL.

Add media endpoint  
takes one video at a  
time. If multiple, API  
must be queried for  
each video separately.

Default displayed if endpoint returns empty list.

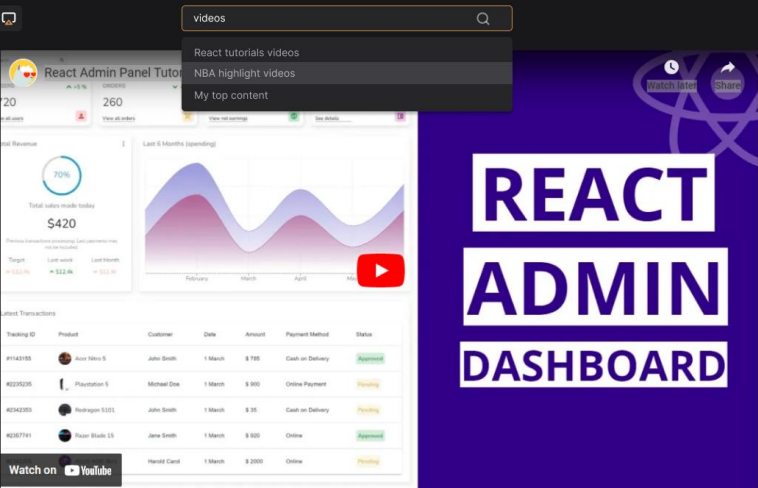

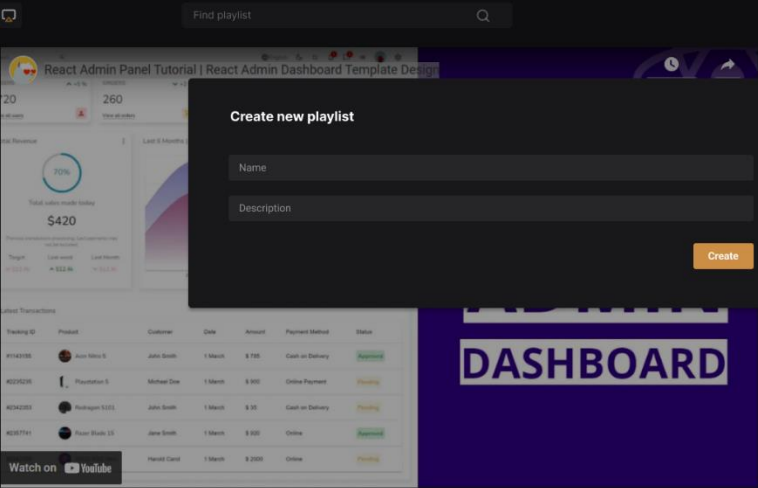

Message to display if HTTP exception is raised when URL is not valid.

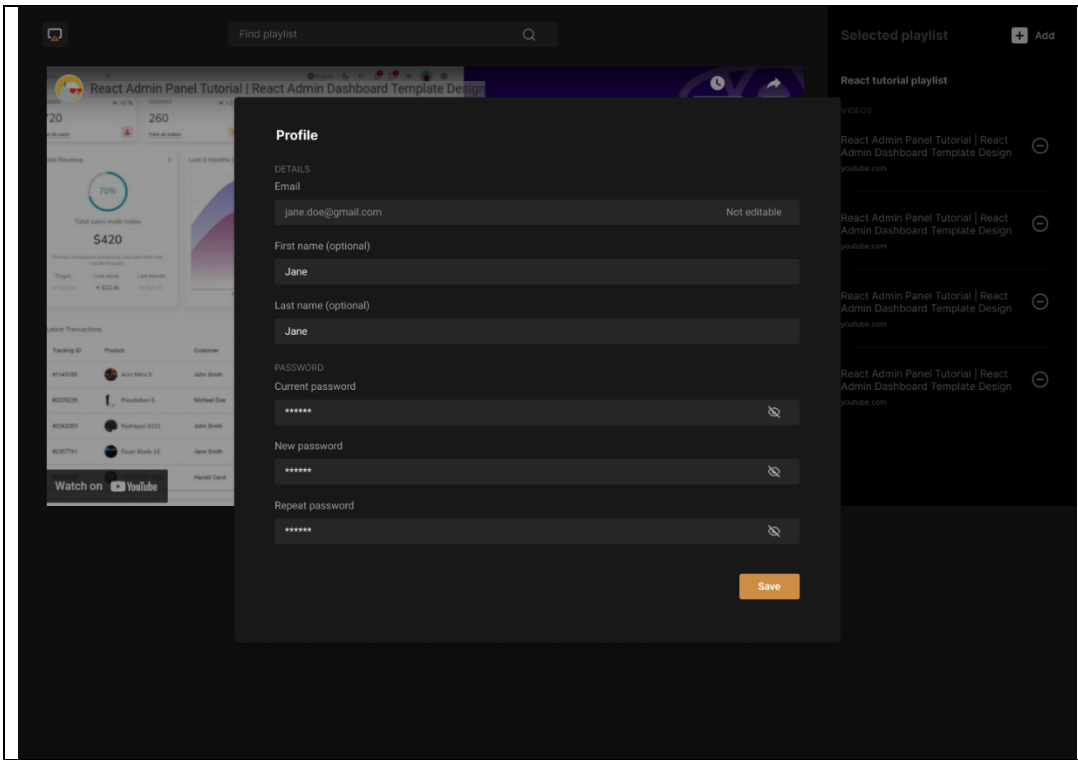

Front end validation to check URL contains HTTPS/HTTP schema.

All media displayed  
within specific playlist -  
playlistID

Edit playlist data via  
PUT by playlist ID

Add new videos by  
playlist ID and embed  
service

 <p>The screenshot shows a React Admin Dashboard. At the top, there's a search bar with the word "videos" entered. A dropdown menu is visible with suggestions: "React tutorials videos", "NBA highlight videos", and "My top content". The dashboard itself features a sidebar with navigation links, a main content area with a "Total Revenue" chart showing a 70% increase to \$420, and a table of "Latest Transactions". A large "REACT ADMIN DASHBOARD" title is overlaid on the right side of the dashboard.</p>	<p>GET endpoint to list all playlists</p>
 <p>This screenshot shows the same React Admin Dashboard, but with a "Create new playlist" modal open in the center. The modal has two input fields: "Name" and "Description", and a "Create" button. The background dashboard elements are dimmed. The "REACT ADMIN DASHBOARD" title is still visible on the right.</p>	<p>Create new playlist via create playlist endpoint.</p>

Update user profile  
PUT endpoint.

Update password via  
update password  
endpoint.
